

THINK TWICE BEFORE BUYING!

FOXCONN VIOLATES

HUMAN RIGHTS

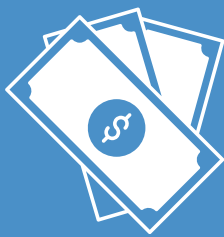

A report on Hon Hai Technology Group

Arianna Griffiths / DH101

Did you know?

Foxconn has a

40%

WHO?

market share in AI servers worldwide.

Apple

This is the primary manufacturer for Apple products, as well as doing work for Nintendo, Microsoft, Sony, and other companies.

These horrible practices are taking place in Foxconn factories while companies like Apple get away with paying very little for this labor and supporting it while they profit.

WHAT?

VIOLATIONS
-excessive hours
-little pay
-unsafe working conditions
-factory explosions
-death by suicide
-discrimination

WHERE?

Foxconn is based in

TAIWAN

and the CEO is the richest person in Taiwan while his employees are suffering

There are also other locations of Foxconn factories across the world, making this an **international human rights crisis.**

To Do

- write letters to the government
- advocate on social media
- protest in person
- boycott the brands

WHAT TO DO?

We can do things to help protest these human rights violations.
